

Policy

Quality Product, on time, a commitment to reduce our environmental footprint and maintain a healthy and safe environment for our employees and maintain the confidentiality, integrity, and availability of Castool's assets.

The IMS policy is:

1. Appropriate to the purpose and context and nature of Castool risks and opportunities and supports its strategic direction.
2. Appropriate to the role of Castool in the supply chain.
3. A commitment to the protection of the environment, including the prevention of pollution and other specific commitments relevant to the context of Castool to enhance the environmental performance.
4. A commitment to encourage all Castool business associates to consider product life cycle and contribute effectively to environmental sustainability.
5. A commitment to worker participation and consultation (including, as appropriate, worker representation).
6. A Commitment to continually improve the effectiveness of the integrated management system.
7. Conforms with its compliance obligations and with mutually agreed quality, environmental, Occupational Health & Safety, Information Security and the requirements of customers.
8. Provides the framework for setting and reviewing quality, OH&S, environmental and information security objectives.
9. Provides a framework to maintain the confidentiality, integrity, and availability of Castool's information assets.
10. Identify and eliminate the causes of occupational injuries and illnesses.
11. Provide information, instruction, training, and supervision to make sure everyone can conduct their work safely.
12. Prevent accidents, incidents, injuries, and work-related illness, and when we cannot prevent them, investigate the cause so that we can identify and correct any shortcomings in our health and safety management processes.
13. Communicated, implemented and maintained at all levels of Castool and to people working under the control of Castool.
14. Reviewed for continued suitability.
15. Available to interested parties, as appropriate.
16. Optimize the management of risks by preventing and minimizing the impact of quality, OH&S, environmental and information security objectives information security incidents.
17. Communicate quality, OH&S, environmental and information security requirements upon contract, to all relevant parties.

1 March 2026
